

To Whom it May Concern:

In regards to the consolidation of BESB, Board of Education and Services for the Blind, I strongly believe that it should remain just the way it is, in other words, the Blind population, including myself, should be able to receive the services that we all need.

I am very happy with the services that I am receiving, and I am hoping that it will continue, such as receiving mobility services whenever I need it, new canes, and also the contract of the Industries Program, which is now at Goodwill where I work.

I strongly support BESB the way it is and hope that it will get even stronger.

Sincerely

Carol Leonard
